

Cristal Buemi is a Puerto Rican-Canadian, award-winning multidisciplinary artist, director (stop motion animation, film, video art/installation, collage and digital design) and educator (OCADU Experimental Animation and YorkU Design). Her work pushes frame by frame boundaries by exploring the diaspora through land and its relation to the body, materiality and inherent beauty found in the minutia. Through a mindful, feminist, experimental, and ecological lens, Cristal focuses on abstract storytelling, sustainability and texture. Both her independent and collaborative works have been exhibited worldwide including: Dawson City Film Festival, Sankofa Square, Planet in Focus Film Festival, Les Sommets du Cinema D'animacion, Animac, Harbourfront Centre, Fashion Art Toronto, Cardiff Animation Nights and broadcasted on AMC, MTV, BellMedia and HBO.
